

Dolores McConnell Young, a native Texan, grew up in the West Texas area, the setting of her first novel SAFE PASSAGE. In 1999 Ms. Young won first place with her entry in the Romance Writers Of West Texas, Chapter 162, Lubbock, Texas, in the historical category, which became part of her novel. Young is married and has two children.

In 1876 the United States was divided along the 98th Meridian. To the east of the line it was settled, to the west still wild. When asked about his opinion on the western half, Horace Greeley ventured to say, "We seem to have reached the acme of barrenness and desolation." Even Daniel Webster was quoted as asking, "What do we want with this vast, worthless area?"

This is the setting for SAFE PASSAGE, an inspirational historical romance novel. Bitter feuding over the ownership of a salt lake compels the novel forward. While exposing the dark side of man's nature, it weaves a tale of healing and self-discovery, of hope lost and found. It built their faith and showed a need for God in personal relationships.

SAFE PASSAGE BY DOLORES McCONNELL YOUNG

SAFE PASSAGE

A tale of healing and,
self-discovery,
of hope
lost and found.
